

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

The specification was amended to comply with the collective requirements of 37 C.F.R. 1.821 to 1.825. The original sequence listing submission included a number of typographical errors which included extraneous sequence corresponding to the last three lines of SEQ ID NO:1 which has now been deleted in the supplemental sequence listing; the sequence corresponding to SEQ ID NO:2 and 3 were accidentally switched and this has been corrected; and the remaining sequences were renumbered. The information included under <213> for the six sequences can be found in the specification under the Examples. The applicants submit that the information contained in the sequence listing is identical to the information contained in the electronic version of the sequence listing. The applicants further submit that no new matter has been introduced into the application as a result of the present amendment.

Prompt consideration and entry of this amendment are respectfully requested.

Respectfully submitted,
